1 Summary

There are four categories of response

1. Opinions, thoughts and feelings

2. Problems and negative experiences

3. Benefits and positive experiences

4. Actions to improve the relationship (i.e. things the government could do to improve things)

There is also an overall code for the whole interview as general positive, negative or neutral.

To do: separate out interviews into sections by question:

1. What words would you use to describe refugees/hosts?

2. Describe positive experience

3. Describe negative experience

4. How can govt help?

2 Correlation matrices

Figure 1: Correlation matrix at whole interview level

Figure 2: Correlation matrix and Section level

3 What explains the A codes?
